

HIKMAT BK

PROFESSIONAL MOUNTAIN BIKER

Namaste! I'm a Professional Mountain Biker from Nepal. I was born and raised in the Rukum District. During the chaos of the civil war, my family and I fled to Pokhara, where I was educated and started working. My mountain bike journey began when, with a lot of enthusiasm, I started work at a local bike shop. I have a variety of different life and work experiences, all of which have helped me build my current work ethic and life philosophy. I believe my number one asset is my ability to adapt to any challenge thrown my way and move forward with success.

I am a very passionate rider, considered an up-and-coming national champion. I am working as a part-time barista while staying involved in the MTB scene here in Nepal. Thanks to the help of some amazing friends, I've been able to continue riding and training as much as I'm able, but I'm in need of more support. Access to quality gear and components is difficult and limited in Nepal.

Here's where I need your help. I'm seeking sponsorship to take my MTB career to the next level. I'm in need of a new bike, components, and gear as everything I'm using is old or worn out. I would love to represent your brand! As a brand ambassador, I will enthusiastically promote your brand in every way possible. I will give you good value for your investment. Using social media, showing good results at races, and sharing with friends, I will represent the brand well. Please contact me via email or phone to discuss sponsorship options.
